Wastewater Solutions

For the Oil Refining Industry

Everyone at ***TM Deer Park Services*** is deeply committed to attentive service, regulatory excellence, and innovative solutions—qualities which have established us as a leader in wastewater management for the Refining Industry. Our mission is to provide effective solutions that are of great value and safe for the environment.

Delivering Safe & Effective Management of Refining Industry Wastewater

Examples of refining industry wastewaters we accept:

- Spent Merox Caustic
- Permanganate & Water
- Sulfidic Caustic
- Glycol Solution
- Cat Gasoline Tank Bottoms
- High pH Brine Water
- Muriatic Acid
- Acetone & Water
- DGA Wastewater
- Water with Phenol
- Flammable Wastewater
- Trans Mix Water
- Corrosive Amine Solutions
- Aluminum Chloride Solution
- Water with Benzene
- Flare Knock-out Vessel Water
- Water with Tetraethyl Lead
- Flammable High Fluoride Process Water
- High pH Turnaround Wash Water
- Wash Water with Sulfuric Acid
- Sulfolane Refinery Wastewater
- Flammable UDEX Process Waste Liquid
- Spent Glycols with Amines

Additional Benefits of Our Services

Large capacity —over 60 million gallons per year injected on average over the last five years. Ability to manage one-time streams, projects in the millions of gallons, or routine wastes shipped every day or week.

Lower cost and more efficient than other technologies such as incineration

Underground injection is an environmentally friendly, low carbon footprint disposal process which offers low air emissions, no discharge to waterways, and no risk to groundwater

Permits allow a wide range of D, F, K, P, and U waste codes and constituents

24/7 acceptance of most waste streams

Ability to process and inject 0-14 pH without neutralization provides cost effective management of streams by often eliminating the need for costly on-site treatment

Permitted Facility

TM Deer Park Services Limited Partnership
EPA Identification #: TXD000719518
State Facility Identification #: 32299
2525 Independence Parkway South
P.O. Box 1914
Deer Park, TX 77536

Phone: 281-930-2525
Fax: 281-930-2535

Rail Car Routing:

Alpha Technical Services
c/o Bayport Rail Terminal
Bayport, TX
Bill of Lading Routing #: ZTS41-756-00
Via Union Pacific Railroad

Class 1 underground injection wells are safer than virtually all other waste disposal practices, according to the EPA.
